**INNOVATION  
GETS INTO  
YOUR HOME**

**MAGO**

Bluetooth® Domotics

# MAGO

## CHERUBINI EMBRACES DOMOTICS FOR A SMARTER LIFE STYLE

The comfort of living becomes accessible thanks to Mago, the innovative Cherubini home automation system, which connects shutters, awnings, electrical appliances and all the devices installed in your house.

Mago is easily installed, both in renovations and on new installations.

The end user can autonomously set up Mago, without installer action.

### With the MAGO System:

- Your smartphone becomes your remote control.
- You can control the different devices in your house wherever you are.
- you can create a perfect and customized home environment, thanks to groups, scenarios and environments.

Available for mobile iOS and Android operating systems.

# THE MAGO SYSTEM

## THE ACCESSORIES THAT MAKES YOUR HOUSE UNIQUE

- **MAGO switch**

Activate your shutters, awnings, screens and venetian blinds, with a unique touch of design.

MAGO control unit  
MAGO actuator  
MAGO dimmer

MAGO gateway

### • **MAGO control unit**

Controls your shutters, awnings, screens and venetian blinds, and it stays hidden in the box or in the wall.

### • **MAGO actuator**

To manage even the most complex devices: timed lighting, thermostat and garage doors.

### • **MAGO dimmer**

Makes smart also your LED lighting.

### • **MAGO gateway**

Connects your MAGO system to the Internet, detects the temperature and the degree of humidity in your house and allows you to control the system even when you are away from home.

# ONE SOLUTION FOR EVERYTHING

A smart system, always in your hand

CONTROL

ROLLING SHUTTER  
AND SCREEN  
CONTROL

BOILER  
POWER-ON

ON/OFF  
ELECTRICAL APPLIANCES

# THE CONTROL IS IN YOUR HAND

A SMART SYSTEM,  
ALWAYS IN YOUR HAND

## IN YOUR HOUSE MAGO, EVERY ROOM IS PERFECT

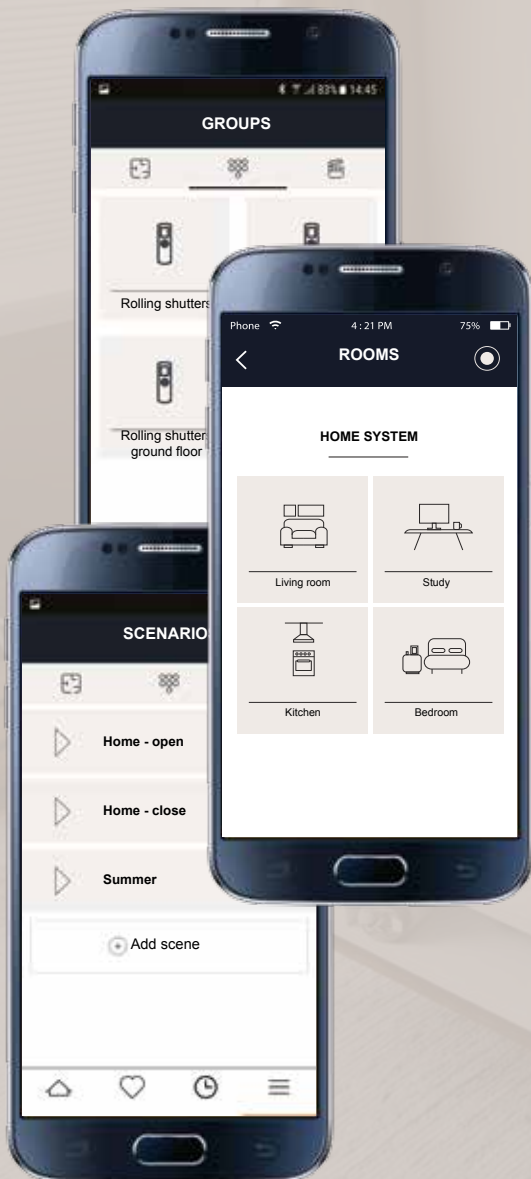

The **ROOM** function groups the devices by room, so you can easily control the different devices. With few taps you can turn on the lights and lower the blinds in your bedroom.

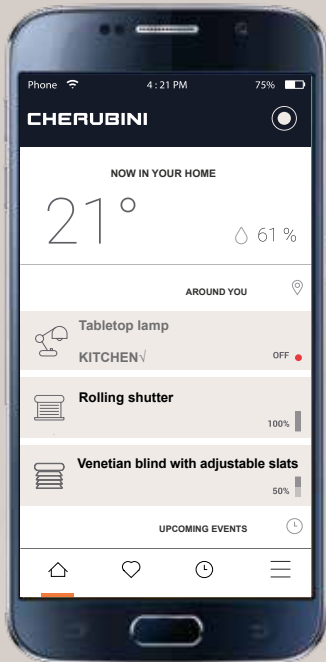

## LIGHT AND BLINDS WITH JUST ONE TAP/TOUCH

The **GROUPS** function allows you to control all identical devices at the same time. Raise or Lower all the screens, turn on or off all the lights become a simple and an immediate operation.

## CREATE THE IDEAL SCENARIO, WITH A TAP

Mago allows you to create different **SCENARIOS**, combinations of more elements simultaneously controlled. For example, you can create the "Back home" scenario to raise all the blinds, switch on the air conditioning and turn on the lights.

## WHEREVER YOU ARE, ALWAYS AT HOME.

MAGO uses Bluetooth to let you consult and modify the status of your connected devices from everywhere in the house. When away from home, MAGO allows you to access your demotics system through the Cloud via Wi-Fi or data SIM (GPRS).

## YOUR HOUSE KNOWS YOUR HABITS.

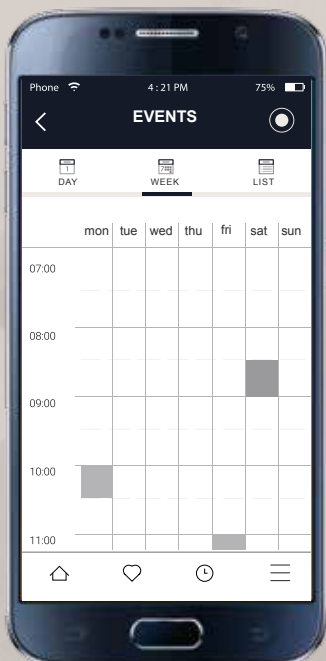

Do you want a cup of tea every day at 17:00? Do you want to raise the rolling shutters to wake up at the desired time with the natural sunlight? Do you want your thermostat to activate when the temperature drops too much? MAGO is able to do it. You can manage time, humidity and temperature according to your habits and comfort.

## CONTROL AND SAFETY ARE IN YOUR HANDS.

Each MAGO user is different; Each one has his own App. The MAGO App can be installed on every smartphone and tablet of your family. You can decide who has the power to give orders to the system, program the different functions and who has the power to even change the passwords. You don't have to worry about the range of the signal: the objects communicate with each other, transmitting your commands to every point of the house. Thanks to Bluetooth signal encryption, you're also safe from hackers and malicious people.

## EASY TO USE FROM THE VERY BEGINNING.

Installing and configuring the MAGO system is very simple. MAGO is designed to be easily installed in an already inhabited house, without any additional wiring. No programming skills are required: the end user will configure the app to make it perfect for his lifestyle.
